EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 23, line 3: "Robax" has been capitalized to read –ROBAX--.

In claim 25, line 4: "Robax" has been capitalized to read –ROBAX--.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly suggest methods of refining glass as claimed in which the glass contains no nitrates and the oxidation state of the glass is controlled with oxygen bubbling as claimed. Prior art methods of nitrate reduction or elimination from glass melts were focused on the use of other oxidizing agents. It would not have been obvious to remove nitrate refining agents and use oxygen bubbling instead.
3. The use of the trademark "ROBAX" in claims 23 and 25 is acceptable in light of the clear definition of the term on page 18 of applicant's specification. The word "Robax" has been capitalized herein as any trademark should be.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
